SECOND ANNUAL REPORT

OF THE BOARD OF DIRECTORS OF THE CHILDREN'S HOMŒOPATHIC HOSPITAL OF PHILADELPHIA.

THE Board of Directors of the Children's Homœopathic Hospital of Philadelphia present to their contributors and other friends this their Second Annual Report.

The year just closed has been a very successful one in all respects, though not unmixed with many anxieties. It is true, as shown by the Treasurer's Report, that the number of annual subscribers has greatly fallen off in consequence of the depression in business and general hard times, yet by adopting other means, which have found favor, we have been able to secure all needed funds and a fair balance for the coming year.

The Board has, during the year, deemed it wise to reduce the amount constituting membership from \$10 to \$5 per year, so as to enlist a larger number of friends in the interests of the Institution.

About three months ago the Board conceived the idea of starting from the proceeds received during the remainder of the year, and it has already reached the handsome sum of \$523.84, a nucleus for a permanent or building fund. The subject was then referred to the Finance Committee to arrange some definite plan for increasing this fund to such an amount as will soon enable us to own a building, the arrangement and equipment of which will be better adapted to our growing needs, and we ask for your earnest attention to and hearty co-operation with this plan.

The Hospital, since its opening, June 20th, 1877, has received 96 children, and the report of this year gives the following statement :

Remaining at last report,	10	
Received during year,	45	
	<hr/>	
Total,	55	
Discharged, cured,		24
Discharged, improved,		3
Died,		2
Removed by friends,		10
Remaining in Hospital,		16
		<hr/>
	Total,	55

For board and surgical appliances about \$100 were received from those placing their children under our care.

We here desire to return our thanks to the Medical Staff who have been so attentive, and so successful as to lose but two patients during the entire year.

The Dispensary Department for the treatment of patients of all ages, has grown exceedingly; so much so that it has been found necessary to add two physicians to assist the Resident in giving proper attention to those who thus call upon us.

Since our organization 15,687 prescriptions have been given to 4749 patients and —— out visits made. Of these, 11,922 prescriptions to 3108 patients, and 289 out visits, have been made during the past year. The special Clinics, so successful last year, have been continued, to an increasing number of applicants, as follows:

Surgical,	325
Ear and throat,	467
Eye, heart, and lungs,	729

The Dental Department, under the skilful hands of Dr. Henry E. Stine, has grown to fair proportions.

Number of operations, principally extraction,	380

The management of the House and its internal affairs has been presided over by our efficient Superintendent, Mrs. Cecilia J. Atwood. By constant personal attention and economy she has assisted us greatly in conducting the Institution as cheaply as possible. Many repairs have been needed during the year, and they have been attended to at the lowest prices, much of the work being donated by the generous persons to whom it was given. A large cook-stove with circulating boiler was secured, to replace the range, which was never equal to the necessities of the Hospital. An out-kitchen was also inclosed, at a trifling expense, so that much of the work of the servants, especially the washing, is now done outside the house proper. A new water-closet was put in in the second story to replace the old one, which had given out. The house is now in a fair condition for usefulness.

The *Ladies' Auxiliary Board*, with their indefatigable labor and untiring zeal, have added greatly to the success and usefulness of the Hospital, and contributed largely to its finances. Besides keeping a watchful eye over and a willing hand to help to secure the comfort of the inmates of the Hospital, they also conducted another Fair,

in November last, which netted \$2085.99. They also set apart a donation day, February 27th, 1879, when the surprising generosity of their friends gave them in cash \$72, and over \$300 worth of supplies, such as groceries, coal, muslin, clothing, etc.

During the winter, Dr. B. W. James, with a few of the ladies, organized a "*Juvenile Auxiliary Society*." The little ones are furnished with jugs in which to collect pennies for the Hospital. They meet about once a month to break the jugs and enjoy themselves.

Messrs. Ford & Zimmerman offered them a benefit in a "Children's Pinafore Matinee," at which was netted the sum of \$150. This, together with the receipts at the three jug-breakings they have had, foots up the comparatively large sum of \$281.20, as the offering of the children.

To a generous public who have thus cheerfully aided us in carrying on this so-much-needed *charity*, we return most sincere thanks, in the name of suffering humanity.

With this gratitude, which we ever feel, we are compelled, however, to remind our friends that there is no endowment fund, and that we are still obliged to depend on those who are charitably disposed for our support. Could the public but see the poor starving sick ones that are so often brought us, and then witness the rapid improvement under the careful attention given, there would be no need for urgent appeal for funds. The heart of man ever responds to the calls of the suffering, and the relief of such is pre-eminently the work of this Institution.

Give to us, then, liberally, and help us to extend the benign effects of homœopathic treatment to the needy and deserving poor.
